

Navios Maritime Holdings Inc.

Navios Maritime Holdings Inc. **Q2 2020 Earnings Presentation**

August 20, 2020

Forward Looking Statements

This presentation and our earnings call contain and will contain forward-looking statements (as defined in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended) concerning future events, including expected cash flow generation, future contracted revenues, potential capital gains, our ability to take advantage of dislocation in the market and any market recovery, and Navios Holdings' growth strategy and measures to implement such strategy; including expected vessel acquisitions and entering into further time charters. Words such as "may," "expects," "intends," "plans," "believes," "anticipates," "hopes," "estimates," and variations of such words and similar expressions are intended to identify forward-looking statements. Such statements include comments regarding expected revenue and time charters. These forward-looking statements are based on the information available to, and the expectations and assumptions deemed reasonable by Navios Holdings at the time these statements were made. Although Navios Holdings believes that the expectations reflected in such forward-looking statements are reasonable, no assurance can be given that such expectations will prove to have been correct. These statements involve known and unknown risks and are based upon a number of assumptions and estimates which are inherently subject to significant uncertainties and contingencies, many of which are beyond the control of Navios Holdings. Actual results may differ materially from those expressed or implied by such forward-looking statements. Factors that could cause actual results to differ materially include, but are not limited to, risks relating to: global and regional economic and political conditions including the impact of the COVID-19 pandemic and efforts throughout the world to contain its spread, including effects on global economic activity; demand for seaborne transportation of the products we ship; the ability and willingness of charterers to fulfill their obligations to us; prevailing charter rates; shipyards performing scrubber installations, drydocking and repairs; changing vessel crews and availability of financing; potential disruption of shipping routes due to accidents, diseases, pandemics, political events, piracy or acts by terrorists, including the impact of the COVID-19 pandemic and the ongoing efforts throughout the world to contain it; uncertainty relating to global trade, including prices of seaborne commodities and continuing issues related to seaborne volume and ton miles; our continued ability to enter into long-term time charters; our ability to maximize the use of our vessels; expected demand in the dry cargo shipping sector in general and the demand for our Panamax, Capesize, Ultra Handymax and Handysize vessels in particular; the aging of our fleet and resultant increases in operations costs; the loss of any customer or charter or vessel; the financial condition of our customers; changes in the availability and costs of funding due to conditions in the bank market, capital markets and other factors; increases in costs and expenses, including but not limited to: crew wages, insurance, provisions, port expenses, lube oil, bunkers, repairs, maintenance, and general and administrative expenses; the expected cost of, and our ability to comply with, governmental regulations and maritime self-regulatory organization standards, as well as standard regulations imposed by our charterers applicable to our business, general domestic and international political conditions; competitive factors in the market in which Navios Holdings operates; the value of our publicly traded subsidiaries; risks associated with operations outside the United States; and other factors listed from time to time in Navios Holdings' filings with the Securities and Exchange Commission, including its Forms 20-F and Forms 6-K. Navios Holdings expressly disclaims any obligations or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in Navios Holdings' expectations with respect thereto or any change in events, conditions or circumstances on which any statement is based. Navios Holdings makes no prediction or statement about the performance of its common stock or debt securities.

EBITDA, Adjusted EBITDA, Adjusted Net Income/(Loss) attributable to Navios Holdings' common stockholders and Adjusted Basic Earnings/(Loss) per share are "non-U.S. GAAP financial measures" and should not be used in isolation or considered substitutes for net income/(loss), cash flow from operating activities and other operations or cash flow statement data prepared in accordance with generally accepted accounting principles in the United States. EBITDA represents net income/(loss) attributable to Navios Holdings' common stockholders before interest and finance costs, before depreciation and amortization, before income taxes and before stock-based compensation. Adjusted EBITDA represents EBITDA, excluding certain items as described under "Earnings Highlights". We use EBITDA and Adjusted EBITDA as liquidity measures and reconcile EBITDA and Adjusted EBITDA to net cash provided by operating activities, the most comparable U.S. GAAP liquidity measure. EBITDA is calculated as follows: net cash provided by operating activities adding back, when applicable and as the case may be, the effect of (i) net increase/(decrease) in operating assets, (ii) net (increase)/decrease in operating liabilities, (iii) net interest cost, (iv) deferred finance charges and gains/(losses) on bond and debt extinguishment, (v) (provision)/recovery for losses on accounts receivable, (vi) equity in affiliates, net of dividends received, (vii) payments for drydock and special survey costs, (viii) noncontrolling interest, (ix) gain/(loss) on sale of assets/ subsidiaries/businesses, on loss of control and bargain gain, (x) unrealized (loss)/gain on derivatives, (xi) loss on sale and reclassification to earnings of available-for-sale securities and (xii) impairment charges. Navios Holdings believes that EBITDA and Adjusted EBITDA are a basis upon which liquidity can be assessed and represents useful information to investors regarding Navios Holdings' ability to service and/or incur indebtedness, pay capital expenditures and meet working capital requirements. Navios Holdings also believes that EBITDA and Adjusted EBITDA are used (i) by prospective and current lessors as well as potential lenders to evaluate potential transactions; (ii) to evaluate and price potential acquisition candidates; and (iii) by securities analysts, investors and other interested parties in the evaluation of companies in our industry.

While EBITDA and Adjusted EBITDA are frequently used as measures of operating results and the ability to meet debt service requirements, the definitions of EBITDA and Adjusted EBITDA used here may not be comparable to those used by other companies due to differences in methods of calculation. EBITDA and Adjusted EBITDA have limitations as an analytical tool, and therefore, should not be considered in isolation or as a substitute for the analysis of Navios Holdings' results as reported under U.S. GAAP. Some of these limitations are: (i) EBITDA and Adjusted EBITDA do not reflect changes in, or cash requirements for, working capital needs; (ii) EBITDA and Adjusted EBITDA do not reflect the amounts necessary to service interest or principal payments on our debt and other financing arrangements; and (iii) although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may have to be replaced in the future. EBITDA and Adjusted EBITDA do not reflect any cash requirements for such capital expenditures. Because of these limitations, among others, EBITDA and Adjusted EBITDA should not be considered as a principal indicator of Navios Holdings' performance.

We present Adjusted Net Income/(Loss) attributable to Navios Holdings' common stockholders because we believe it assists investors and analysts in comparing our operating performance across reporting periods on a consistent basis by excluding items that we do not believe are indicative of our core operating performance. Our presentation of Adjusted Net Income/(Loss) attributable to Navios Holdings' common stockholders adjusts net income/(loss) attributable to Navios Holdings' common stockholders for the items described above under "Earnings Highlights". The definition of Adjusted Net Income/(Loss) used here may not be comparable to that used by other companies due to differences in methods of calculation.

Adjusted Basic Earnings/(Loss) attributable to Navios Holdings' common stockholders per share is defined as Adjusted Net Income/(Loss) attributable to Navios Holdings' common stockholders divided by the weighted average number of shares for each of the periods presented.

Navios Universe

Premier Ship Owner

- ~ 200 vessels controlled
- Economies of scale
- Global brand
- Value creation through cycle
- Strong industry relationships
- Seasoned management

Navios Maritime Holdings Inc. (NYSE: NM)

52 dry bulk vessels:
35 owned ⁽²⁾, 17 chartered-in

Navios Maritime Partners L.P. (NYSE: NMM)

53 vessels ⁽³⁾: 14 Capes, 23 Panamaxs, 6 Ultra-Handymaxes, 10 Containerships

Navios Maritime Acquisition Corporation (NYSE: NNA)

54 vessels ⁽¹⁾: 31 product tankers, 14 VLCCs, 2 chemical tankers, 7 Containerships

Navios Maritime Containers L.P. (Nasdaq: NMCI)

29 Containerships

Navios South American Logistics Inc.

Port Terminal facilities, barging & cabotage

(1) Includes four newbuilt vessels on bareboat charter expected to be delivered in Q4 2020, Q1 2021, Q3 2021 and Q2 2022, respectively.

(2) Includes five bareboat-in vessels; includes one vessel agreed to be sold

(3) Includes three bareboat-in Panamax vessels; two expected to be delivered by H1 2021

Strength through Diversification

Navios South American Logistics Inc.

- Growing port business - critical infrastructure for transshipping minerals & grains
- \$103.9 million: 2019 EBITDA
- 58% net debt to book capitalization: Q2 2020
- Credit ratings: B/S&P, B3/Moody's

Navios Maritime Acquisition Corporation (NYSE: NNA)

- Tanker vehicle
- \$72.7 million Q2 2020 adjusted EBITDA
- Robust market fundamentals
- ~ \$480 million in long-term contracted revenue
- Credit ratings: B-/S&P, B3/Moody's

Navios Maritime Partners L.P. (NYSE: NMM)

- 38.7% net debt to book capitalization Q2 2020
- ~ \$500 million of remaining contracted revenue
- No significant committed growth capex
- Credit ratings: B+/S&P, B2/Moody's

Navios Maritime Containers L.P. (Nasdaq: NMCI)

- Navios Group's Containership vehicle
- 53.7% net debt to book capitalization: Q2 2020

Pandemic's Impact on Global Trade

World economies gradually recovering in H2 2020 and heading to a strong 2021 rebound

- China back to strong growth in Q2 2020; 2020 = 1.0%, 2021 = 8.2%
- Advanced economies: 2020 = (8.0%), 2021 = 4.8%
- World GDP: 2020 = (4.9%), 2021 = 5.4%

Dry bulk trade exposed to disruption in world economic activity

- 2020 dry bulk trade is projected to contract by 3.9% and increase by 4.5% in 2021
- As China and emerging economies recover in 2H 2020, volumes projected to improve

Recent Developments

Liquidation of Navios Europe II

- Completed in June 2020
 - \$7.9 million cash + two unencumbered Panamax vessels
 - Approved by Navios Holdings' Special Committee

Debt

- \$50.0 million loan from NSM
 - Interest: 5% (7% on deferred payments)
 - Maturity: Q4 2024
 - \$31.5 million drawn in Q2; \$18.5 million drawn in Q3

Fleet

- \$14.1 million sale of two 2005-built Panamax vessels
 - Sales expected to be completed in Q3 2020
 - One vessel already sold in August 2020

Navios Logistics

- Filed 6-K on August 19 disclosing it had filed for an IPO on B3 Exchange in Brazil
 - Any offering is subject to market and other conditions
- \$500.0 million 10.75% Senior Secured Notes due 2025
 - Notes issued in Q3 2020 and trading at \$106.4 ⁽¹⁾
 - Refinanced 2021 and 2022 maturities

Liquidity Position

(\$ million)

	June 30, 2020
Cash ⁽¹⁾	55.1
Debt ⁽³⁾	1,590.9
Shareholders' Equity ⁽²⁾	74.4

Seaborne grain trade to increase by 4.6% in 2020

Chinese soybean and coarse grain imports to support grain trade in H2

Average Monthly Soybean Chinese Imports 2020

- Chinese monthly soybean imports are forecast to increase by 0.7 million tons per month in 2H20 with economic growth as the pandemic subsides and China rebuilds its swine herd.
- World grain production this year will reach a record according to International Grains Council and USDA
- Brazilian exports drove the market in 1H20 with record monthly soybean exports in April, May and June
- US expected to drive exports in 2H20 on strong soybean and coarse grain shipments as the 2020/21 crop year begins in Sept.
- USDA forecasts record corn production and 2nd highest soybean crop ever
